

**RootsScrub E 350 - Cylindrical Deck Scrubber Drier (Made in India)**

Presenting Roots Scrub E 350- a compact, robust and handy scrubber drier with two counter rotating brushes, designed for effective cleaning of floors and joints. It has two squeegees with independent suction for both wet scrubbing and dry cleaning, both in forward and reverse directions. Needs only limited space for storage and transport as the operating handle is foldable. An ideal machine for commercial and industrial cleaning.

**Features:**

- Twin cylindrical brushes for optimum cleaning of structured floors, Easy and quick brush replacement. Optimal utilization of squeegees for effective suction.
- Portable solution tanks eliminate the need for buckets and pipes for filling or emptying, Small size enables the machine to clean restricted spaces and under furniture.

**Technical Specification:**

Technical Data	Units	E 350
Working Width	mm	350
Effective Suction Width	mm	450
Working Speed	km/hr	4
Theoretical area performance up to	m.sq/hr	1400
Vacuum	mbar(mmWC}	186 (1860)
Pump discharge	L/min	0.22
Air Flow rate	m.cube/hr	167
Nominal Voltage/Frequency	Volt/Hz	230/50
Capacity Brush Motor	W	600
Capacity Suction Turbine	W	850
Capacity Pump	W	16
Machine Capacity	W	1466
No.of brushes	No.	2
Brush Revolution	rpm	650
Brush Pressure	kg	21.5
Brush Diameter	mm	100
Tank Volume - Fresh/Dirty Water	Litres	10/11
Sound Level	db(A)	73
Transport Dimensions (l/w/h)	cm	68.5/47/55
Empty Weight	kg	38
Weight (Ready for Operation)	kg	48
