# MATERIAL SAFETY DATA SHEET

**PRODUCT NAME:** CNC 1100L BIN

**BRAND:** HYGIENE SYSTEM

## Section 1: 1. Identification of substance/Distributed by

### Identification of substance or preparation

Product name: PLASTIC DUSTBIN

### Distributed by:

**DAITONA GENERAL TRADING L.L.C.**

**Address:** Shop No. 5, Al Hathboor Building, 1st St, Abu Hail, Deira, Dubai

**Telephone:** +97142683390

**Email:** info@daitona.com

## Section 2: 1. Composition/information on ingredients/Weight

| Ingredient name       | CAS Number | EC#       | Weight(%) |
|-----------------------|------------|-----------|-----------|
| HDPE                  | 9002-88-4  | 200-815-3 | 99.95%    |
| Toner                 | Mixture    | Mixture   | 0.05%     |
| Item Weight (Kg.)     | 50Kg.      |           |           |
| Carrying Weight (Kg.) | 440Kg.     |           |           |

## Section 3: Hazards identification

**Classification :** Not classified

**Potential Health Effects :** Contact with combustion products will irritate eyes and skin. Inhalation will cause irritation to the lungs and mucous membrane. Irritation to the eyes will cause watering and redness. Reddening, scaling, and itching are characteristics of skin inflammation. No specific health hazards for normal use.

## MATERIAL SAFETY DATA SHEET

**PRODUCT NAME:** CNC 1100L BIN

**BRAND:** HYGIENE SYSTEM

### Section 4: First-aid measures

**Inhalation:** In general, it is impossible to inhale.

**Ingestion:** Under normal circumstances, accidental ingestion will not occur. If swallowed, call a physician immediately.

**Skin contact:** There is no special symptom in normal contact with skin.

**Eye contact:** Normally, no foreign objects will enter the eyes

### Section 5: Fire-fighting measures

**Flammable.**

**Suitable extinguishing media:** Carbon dioxide, chemical powder, foam fire extinguisher, sand, soil, water mist.

**Special hazards of product:** None.

**Protective equipment for firefighting:** Firefighters wear gas masks, helmets, fire fighting clothing and gloves.

### Section 6: Accidental release measures

**Personal precautions:** Not applicable.

**Environmental precautions:** It will not pollute the environment, but it should avoid leakage and damage to the cleanliness of the environment.

**Spillage:** Not applicable

### Section 7: Handling and storage

**Handling:** Avoid contact with fire. Avoid dumping while handling.

**Storage:** The storage area needs to be well ventilated, no open flames are allowed in the storage area, and direct sunlight is avoided.

### Section 8: Exposure controls/personal protection

**Eye Protection:** Unnecessary.

**Respiratory Protection :** Unnecessary.

**Skin Protection:** Unnecessary.

**Ventilation:** Unnecessary.

# MATERIAL SAFETY DATA SHEET

**PRODUCT NAME:** CNC 1100L BIN

**BRAND:** HYGIENE SYSTEM

## Section 9: Physical and chemical properties

### General information Appearance

**Physical state:** Solid

**Odor:** None

**Colour:** Green & Grey

**Flash point:** None

**Melting point:** None

**Absorption wavelength:** None

**Prohibited content:** None

## Section 10: Stability and reactivity

**Stability:** The product is stable. Under normal conditions of storage and use hazardous Polymerization will not occur.

**Conditions to avoid:** Strong oxidant, fire or high temperature is strictly prohibited.

**Hazardous decomposition:** None.

## Section 11: Toxicological information

**Acute toxicity:** No information

**Germ cell mutagenicity:** No information

**Carcinogenicity:** No information

**Reproductive toxicity:** No information

## Section 12: Ecological information

**Ecotoxicity:** No information.

**Persistence and degradation:** No information.

**Bioaccumulation or bioaccumulation:** No information.

**Mobility in soil:** No information.

## Section 13: Disposal considerations

**Container disposal:** Waste disposal should be in accordance with existing federal, state and local Environmental regulations.

## MATERIAL SAFETY DATA SHEET

**PRODUCT NAME:** CNC 1100L BIN  
**BRAND:** HYGIENE SYSTEM

### Section 14: Transport information

**Transportation:** Containers should be inspected before shipment, so as to ensure that the containers do not leak, drop or damage during transportation. It is forbidden to load and unload mechanical equipment and tools prone to sparks. During transportation, we should prevent sunshine, rain and high temperatures.

### Section 15: Regulatory Information

**Regulatory Information:** According to the specific laws and regulations.

### Section 16: Other Information

The above information is based on data at the date of collection provided by the manufacturer. We do not bear any responsibility as this information may be applied under conditions beyond our control, or modified, and we do not bear any responsibility.
